

## **VaxxinoVA International BV**

VaxxinoVA develops, produces and markets a wide range of innovative vaccines to protect livestock and fish against disease. We create high quality solutions to improve animal health and to support the business of our customers. We believe that innovation and excellence in research are essential to produce premium products that match the current and future requirements in animal health.

VaxxinoVA is a young, international company. It is headquartered in Nijmegen, the Netherlands and has multiple sites across the world. We invest in research to achieve our ambitious goals and we are expanding our research and development department. We are looking for talented colleagues who enjoy working in an ambitious, dynamic and flexible research environment with opportunities for further professional development.

VaxxinoVA belongs to the Erich Wesjohann Group (EWG), a German based family-owned company specialized in poultry and fish genetics, nutrition and Animal Health. The EWG is highly committed to R&D and active in more than 50 countries. Due to the expansion of our Nijmegen Research site (located at the Novio Tech Campus) we are looking for:
